Profile

Versatile full-stack developer with expertise in both backend development and graphic design, capable of building scalable applications and visually compelling user interfaces. Experienced in Python, Flask, MySQL, and responsive web design, with a strong understanding of UI/UX principles. Adept at combining functionality with creativity to deliver seamless and engaging digital experiences. Looking to contribute to innovative projects while enhancing technical and design skills.

Experience

01/2026 – Present
Vadodara

Enlighten Infosystems

Python/Flask Intern

- Developed **AttendX**, a smart attendance management system using **Flask, OpenCV, and Face Recognition**.
- Implemented **real-time face detection and recognition** to automate attendance marking.
- Created and optimized **MySQL database** for storing student and attendance records.
- Added **secure login system and role-based dashboards** (Admin, Faculty, Student).
- Integrated **frontend and backend systems**, ensuring seamless data flow and responsive user experience.

EDUCATION

2023 – Present
Vadodara

Diploma in Computer Science Engineering

ITM (sls) Baroda University, Gujarat
CGPA: 9.17

2023
Vadodara

SSC

Percentage: 78.33%

TECHNICAL SKILLS

Languages

Python, Java, C

Web

HTML, CSS, JavaScript

Database

MySQL, SQLite

Tools & Technologies:

Git, VS Code, Android Studio

Graphic Design

CorelDRAW, Logo Design, UI Design

Backend

Flask

Project

Attendance Management System (Face Recognition + GPS)

Developed a smart attendance system integrating face recognition and location tracking for secure and automated attendance management. Key features and achievements:

- Developed a full-stack application using **Python, Flask, and MySQL** for efficient attendance management
- Integrated **real-time face recognition** using webcam for automated student identification
- Incorporated **GPS-based location tracking** to ensure attendance is marked only from authorized locations
- Designed optimized **MySQL database schemas**, improving data storage and retrieval efficiency

- Built **responsive web interfaces** for student registration, attendance monitoring, and reporting
